
Invalid Electronic Serial Number Hp Error [EXCLUSIVE]

HP Business Desktops - How to fix an invalid electronic serial number in the BIOS. Problem. After replacing the system board, booting the device causes an error. This error usually occurs because the BIOS is unable to automatically detect and load the driver for the new board.

If you notice this problem, try the following instruction. Step 1: Enter the BIOS using the Delete key on the system unit. (Most systems allow you to perform this operation with Enter.) Step 2: Enter the "Advanced BIOS features" menu. Step 3: Change the "EFI" setting to "PCI-express" or "PCI". By default, this option is displayed under "PCI-location".
