with a loss of the brain and its ability to understand or grasp abstract. »The theme of the virtual. checking peri-operative complications, such as loss of vision.. of the ophthalmologist, peri-ocular, peri-operative, operating theatre.Q: How to persist a property in SharePoint One of my SharePoint sites has a site column that saves the current time in the field. I would like to remove it, but the reason this is a field is that it is used as the field condition for displaying a large list of data. How can I remove this field? I did not find any option to do this through SharePoint Designer. A: In SP Designer go to list settings (for example on the list that has the column) and check "Items can't be modified" under Items. That's a long way around to just remove the column, but it will prevent further changes and make the column not show up in lists. Pancreatic ductal adenocarcinoma is the fourth leading cause of cancer death in both men and women in the U.S., with >36,000 deaths in 2006. Furthermore, while surgical resection of early lesions is curative, patients with locally advanced disease usually present with locally advanced or metastatic disease, which often carries a poor prognosis. The current standard of care for patients with locally advanced disease is systemic therapy; however, the 5-year survival rate for patients with advanced disease remains
