Encore; Encore CS6; Bridge; Bridge CS6; Media Encoder; Media Encoder CS6.ESC Málaga released a statement of dissolution of the club, and they have informed that their reason for doing so was the very disappointing results in the league, which has been scored by just one win in the last 9 games in the division, and the relegation to the Tercera Division. According to data from the Spanish league, the final result was a big and important loss and its result has been very difficult to continue its existence in the league. It is important to point that the final result did not result in a relegation because a club must be always six points from the relegation until the end of the season and again in the final day of the season. However, it seems the ESC Málaga was only a very distant club of the relegation zone and this is the reason for its dissolution. With this decision of dissolution ESC Málaga is leaving its history behind and will cause a lot of trouble to the franchise again in the future. The first division in Spain will be affected by that decision to ESC Málaga. At least for the championship, there will be just three teams in the First Division, because it will be also be affected by the dissolution of the Alavés, which is next to it, and this will give an extra spot to the third-placed finisher of Segunda Division.Q: Sistema HTML 5 para AdobeFlash.
