Open wounds are awesome. They are scarring reminders of life's greatest lessons. They remind us that even the most powerful and permanent of the marks we leave on life are ultimately transient. We can only lay so many rocks into the flesh of a man. We can only cut so many lines and patterns into a living body. We are imperfect creatures. No matter how much we believe we are putting something out there into the universe, we know that we cannot escape the fact that we are, in the end, an ensemble of failed proteins, a collection of fleeting and broken molecules. We are nothing but rags and dust, dirt and scum. Then, from that nothingness, what is born is even greater than our nothingness. When life comes in the light, it is stronger than its absence. A wound can become a scar. Scars can become art. So can wounds. So can birth. On that basis, let's begin. My mother's wisdom runs deep. She's from the other side. She spent a large
