[GAMEPLAY] For 2 - 4 players in local multiplayer mode, straima is a pulse-pump platforming game featuring tons of levels spanning multiple worlds, special powers and gameplay mutators. A few game modes to add even more amounts of devil-may-care fun include Deathmatch, Team Handball, Gunslingers and the randomly generated endless Infinni Runner. The full level editor allows you to design, save and share your own levels with friends. [PLAYING] Each level starts with you alone on the small planet earth (our little ball of dirt and miscellany), but you're always on the lookout for your rabbit, pinky and the escape pod to lead you to your next level. You can jump into pits, climb and swing to reach new levels, pick up special powers and of course, shoot dudes with your heart, because that's what you do. Every action is charged up with the Wark energy that fuels your heart, and anything that can damage your heart gives you a limited time of invulnerability. [MUSIC & SOUNDS] Some of the 8 unique music tracks are composed by yours truly, and the well-known German musician Norbert Plottke came up with the original timings and sound effects. In-game music will be available for public download after launch. [DIFFICULTY] All levels are gradations of difficulty, starting off as something of a challenge but quickly turning into an intense and unforgiving pulse-pumper experience. In the easy settings, you'll have to avoid certain bugs, enemies and traps to survive (if you allow the fall of your heart to happen). The hard setting offers more danger, even taking damage can slow you down, but also requires you to manage your Wark reserves and leap through precise timing attacks to succeed. The crazy can be whatever you want (whether that be crazy levels or dudes with superpowers) and the super levels offer your the most insane experience of all. [MULTIPLAYER] For 2 - 4 players in local multiplayer mode, straima is a pulse-pump platforming game featuring tons of levels spanning multiple worlds, special powers and gameplay mutators. A few game modes to add even more amounts of devil-may-care fun include Deathmatch, Team Handball, Gunslingers and the randomly generated endless Infinni Runner for maximum chaotic chumily fun times. And finally a full feature level

The United States Attorney's Office announced last week that Leesa R. Doan, 45, pleaded guilty before U.S. District Judge John A. Zagel in Chicago to one count of conspiracy to defraud the United States. As part of the plea agreement, the defendant agreed to pay \$500,000 to Internal Revenue Service, United States Department of Labor and Department of Education and forfeit \$922,020 to the United States. The defendant also agreed to cooperate with the United States. According to the indictment, the defendant admitted that she engaged in a scheme to file false federal tax returns, and that between 2010 and 2011, she directed her then-employees at a tax preparation business, Kendrick & Associates, Inc., to file numerous fraudulent federal tax returns. According to the plea agreement, the business prepared more than 28,000 federal income tax returns for clients; most of those returns reported false information and false tax withholdings. She is scheduled to appear Sept. 25 before Judge Zagel for a plea and sentencing hearing. If she is found guilty of the count to which she has pleaded guilty, Doan faces a maximum statutory penalty of three years in prison; however, if applicable sentencing enhancements are involved, she could face a term of imprisonment up to 15 years. The Department of Justice, U.S. Secret Service, Cook County Sheriff's Office, Internal Revenue Service-Criminal Investigation Division and the U.S. Department of Labor-Office of Inspector General investigated the case.
