Asked what motivated him to try to rescue his parents, Bohne told the court, "I'm ashamed of myself because I'm not a man, a grown man, who would just drop everything. It's not like I went running home to my mother and said, 'I'm about to leave on a journey to rescue my mother and then stuff the damn thing and make the television show.'" The court heard that Bohne sold his van in March 2001 to an undercover FBI agent who was posing as a private investigator. In April 2001 he told the FBI that he did not want to retrieve his family and just wanted to get rid of the van. The judge said he could not be sure, but "it would appear that he knew exactly where his family members were and had some way of being in contact with them while he was in Mexico." Bohne later told a BBC reporter that he felt guilty, even though he had done nothing wrong. He had taken his family into his confidence, he said, "and I felt I had betrayed the trust and that made me feel guilty. I took back what I had given them and that's when I was in the wrong." Bohne kept in touch with the FBI and US authorities and exchanged letters with his mother, who told him she was all right and "got by". And even though he did not believe his family was being mistreated

J. J. Nanjenta (👍👍👍👍) Of all the fantasy RPGs I've played, none had ever struck my fancy the way the elves have. I adore the way that the worldbuilding is just amazing. The writing is really good and fun to read, and when you actually get to play, you get to appreciate all the effort that went into the creation of the game. The story itself is a bit of a tricky topic. The gameplay is great and though it takes a little bit of time to get used to the system, I enjoyed my time with Elden Ring very much. The combat in particular is really neat, and in fact, would have worked very well in the S-RPG genre. While the game borrows a lot of gameplay from the likes of Evangeline, the combat has a lot of interesting twists that make it not only unique in itself, but also extremely fun as well. It isn't all about the combat though. There is a huge amount of story content on display here that certainly makes up for any flaws that you might find in the gameplay. Most importantly, the art direction is really well done, and the story is conveyed in a way that it really has you wanting to return to this world. The voice acting is also a bit of a treat, and the sound effects, all of which is really well done. I'd recommend this game to anyone looking for a visually pleasing game with a unique twist in gameplay. While it might not be the best S-RPG in existence, it certainly excels in the field of storytelling. ADVENT OF STORY game: J. J. Nanjenta (👍👍👍👍) Elden Ring is a game that you are unable to go through without having a huge smile on your face. It's a game that I would love to recommend to any RPG fans. If you're looking for a story about people in a fantasy world, Elden Ring's got it. If you like to fight, Elden Ring's got it. If you like to take on strong and emotional quests, Elden Ring has you covered. Elden Ring is a game that is easily my favorite of all time. In a game that took five years to release, it's bff6bb2d33

Q: How to type properly the text and test with TypeScript I'm new to Typescript. I'm trying to check the text of an input text and see if it is empty. This is the code I have: export class WebPage extends Component { constructor(props) { super(props); this.state = { response: '' }; } // I call an API to get the text handleSubmit = event => { const { onSubmit, event, url, text } = this.props; event.preventDefault(); const { response } = this.state; const data = { text, url }; fetch(url, { method: 'POST', body: JSON.stringify(data) }).then(response => response.json()).then((data) => { const response = data.text; if (response !== '') { this.setState({ response }); return; } else { alert('Input is empty, please fill in the text box'); } }).catch(console.log);
