Features of Tarnished - 15 Different Classes to Choose From. - All Classes Support all Skills. - Classes with Special Skill Doge Family not allowed in the game. Hours of Nonstop Action! \* An adrenaline rush! - Kirito from Sword Art Online, Aladdin from Aladdin, Rubi from Momoiro Clover Z, and many more top quality characters will put their strength and skills to the test in this fantasy action RPG! You must be 18 or over to play. By playing Tarnished, you accept these terms and conditions.

Lifestyle Casa Cosmica, The Weekender: 7 Pics From A Weekend In The City If you're anything like us, you're constantly on the lookout for the best design-related experiences. For a weekend in the city, look no further than Casa Cosmica, the brainchild of the always-amazing Anna Wintour. We've scouted out some of the hottest spots around and we're sharing them right here. While the recently opened magazine boutique stocks some of the most sought-after and coveted titles in the city, the boutique also features a collection of custom and printed stationery, pens, and funky toys — all curated by Anna and Katie Mingle, the brainchilds of Casa Cosmica. Anna and Katie also produce a quarterly newsletter (read about it here). We've been hoarding the newsletter for months because it's so damn good — there's always a new feature, like travel tips, editor's picks, a favorite room, or a restaurant, and it's always so insanely witty, stylish, and inspiring. Not only is Anna's newsletter perfect for the home, but the store features a collection of some of the most sought-after, hard-to-find, and classic titles for the home, with their signature slant to design. Don't let the store's location on 46th Street

## **Elden Ring Features Key:**

A high fantasy world

Hours of over 30 hours of entertainment

A limitless adventure ahead

A brand-new, breathtaking D&D RPG style.

A game built with the fans of D&D RPGs in mind

Features inspired by many first-person D&D RPGs from multiple D&D game systems

A Striking Visual Style

A storyline that will touch your heart and make you fall in love with Elden Ring all over again

The beautiful visual style that takes you out of this world

The impactful storytelling that is not only novel but well-researched as well

The beautiful, nostalgic atmosphere captured from original D&D animated movies

Action-adventure making action RPGs a pleasure to return to.

Q: GitHub: Merge branch 'master' into 'name' My understanding is that when branching a repository, the base is looked at is master. Whenever someone makes a commit to master, their branch becomes 'name' including all the commits up until that point. What would be the correct way to merge 'name' back to 'master', assuming it doesn't conflict? A: This should cover what you need: `git checkout master`  
`git merge name`  
`git checkout name`  
`git rebase master`  
RickyB90 suggests a visualization of a typical merge,

**MANILA, Philippines — A service dog is being hailed as a hero in the Philippines after he saved the life of a young leper who was bleeding profusely after having his scrotum cut off. TV5 reported that 22-year-old Raymundo Laway was bitten by a tramp who dragged him away from the Plaza Verde Shopping District in Makati City on Sunday. He died after spending eight hours bleeding profusely. Showing no sign of pain, Laway's service dog, Vallad, followed his master's screams and dragged him to a nearby clinic. An official of the Hero Dog Corps, a group that rescues service animals, told ABS-CBN News that Laway was recovered and now he is recovering. At least 20 people have also named Vallad as a hero in a Facebook poll. Read Next EDITORS' PICK MOST READ**

All rights reserved.Q: Xcode Workspace Hierarchy File I am new to Xcode and I need to understand file hierarchy as I am unable to locate it in my Xcode. Can anyone tell me what is the location of hierarchy file in Xcode? A: The file hierarchy is here in your Xcode project: Inside your project folder in the Xcode menu, there is a file called project.xcworkspace. This is usually at the top level of your project, and is hidden so you can't see it in find**
