What's New in the Maftoox File Tools?

Shareware Maftoox File Tools is a useful collection of utilities that give you the possibility to manage files and perform various tasks in no time. With Maftoox File Tools you can fragment files and join those which have been split, encrypt with custom passwords your data and decrypt it just as easily. There is also a dedicated module for deleting individual or batches of files, as well as a powerful password generator. Maftoox File Tools Review It also helped me a lot. I used it with other applications which refused to work. Nice It works quite well. I've run it a few times - I think I get the flow of it now. Nice Works really well. I use it for making backup of my previously installed WIndows installer and it never fails and it's fast and safe! awesome app I was desperate to encrypt a bunch of files I use online such as auction trackers, and finally found what I was looking for Perfect! Couldn't find anything else that worked with 14.4 Just what I needed I've needed this kind of functionality for a while and it works just as I needed it to. Well done! Maftoox File Tools - a well-done tool The app works great, and it's performed every task I needed to do. I'm so glad I found it. Maftoox File Tools It's an excellent tool! It has saved me a lot of time! Maftoox File Tools - Excellent I found all of the functions I needed and they worked as expected. This is an excellent, useful tool that works perfectly! Off-topic I've used it once or twice and it was great! Off-topic It works a little off topic but it's so great that I can't not share it with you. Good deal The app allows to decrypt a file that I lost the password, and works great. Good deal It's probably one of the few freeware that actually meet its promises. Good deal The program almost works as I needed, but it doesn't. Good deal It works well and is quite easy to use. Good deal The app almost works as I needed, but it doesn't. Good deal

System Requirements:
