The design of the game revolves around the development of a family, with unique heroes, buildings and quests that tie the history of Lorenzo de' Medici and his family to the city's epic history. As in real life, in the game a choice must be made between the Medici and their allies, their enemies and even competitors for power. What are you waiting for?! Bookmark our web page and visit the game whenever you want! Requirements: A mouse and keyboard A screen resolution of 1280x720 pixels or more Font size between 35 and 55 (depending on the thickness of the game) Playing time: 60-120 minutes Minimum of 5 players If you wish, you can support the game development by donating to our Kickstarter campaign!
