What's New in the Samsung TV?

- Separate the Quick Action Buttons from the controls. - Quick Action Buttons are customizable. - Drag the separate Quick Action Buttons from the rear to the top of the screen. - You can enable an action but keep it out of the way to re-enable it quickly. This way, users can easily use the Quick Action Buttons to dismiss key apps while the controls are easy to use while a user is seated in front of the TV. Apply the License again to Restart the Program and run the vDock-
Download the "vDock-softcopy.zip" file. Double click on vDock-softcopy.exe to install the software.
vDock-softcopy.zip Default Software
XBMC XBMC is a FREE, open source, cross-platform (Linux, Windows, OS X, and Palm) software media center for

advanced entertainment with thousands of free to watch TV channels, movies, and music.

Samsung TV: - Icons allow you to replace the default desktop icons with the ones for Samsung TV applications.

- It provides a central visual place where your media-related icons, bookmarks, and appointments are stored.
- Having a central location is convenient if you use more than one PC.

Samsung TV Description: - The program is compatible with any computer which has XBMC installed.

- This program does not require any XBMC plugins.
- You can manage all your media from one place.
- You can change the way icons are organized in the XBMC interface.
- If you use XBMC on more than one PC, you can manage all your media from one

place. - You can use this program with a TV remote. - You can configure which channel you want to watch.

Samsung TV1: - While watching TV, you can customize which tab is displayed on the left side. - Another tab can be displayed on the right side. - Place the icons of your favorite music on the right side and the tab on the left side will allow you to choose what to watch.

Samsung TV Description: - Put the tabs on the left and the icons on the right side. - Use the icons to start playing music from an external hard drive. - You can even use the icons to control the playback. - You can see everything at a
