Similar programs include Tikz was an open-source graphics package and its own type of geometry processor. Designed to be simple and easy to use, Tikz is capable of drawing thousands of freehand paths and images, along with vectors, splines, and text. Paths are drawn by connecting points, which can be moved and rotated, and can be drawn in 3D, 2D, or 1D. Tikz also includes features for manipulating and composing shapes, making it suitable for creating interactive presentation slides and prototypes. Originally designed as a free and open-source software for the graphics toolkits GTK+ and Qt, it has also been ported to other platforms such as Windows, Mac OS X, GNU/Linux, and FreeBSD. However, its

functionality has now been superseded by the more comprehensive TikZ++. Adobe Illustrator was a commercial vector graphics application. Developed and marketed by Adobe Systems, it was originally called Adobe Draw and was released in 1985 as a drawing program for the Macintosh and Microsoft Windows operating systems. It was designed to be a graphics editor, with a simple drawing area, no text, and no animation tools. Illustrator had features for drawing lines, circles, ellipses, arrows, and rectangles. It also had basic tools for drawing and editing paths and shapes. One of its most popular uses was for making diagrams and layouts for brochures and leaflets. Like AutoCAD, Adobe Illustrator can be used for creating 2D drawings, 3D models, motion graphics, diagrams, logos, illustrations, photographs, and more. Vector editing tools EPSON Expression-G EPSON Expression-G is a vector graphics program for the Macintosh platform. EPSON released it in 1989 as a free software package for Mac OS 8 and Mac OS 9. Customer reviews This is a lovely restaurant where you can meet with friends and family. The food is really good and the prices are very affordable for the quality. Our party of 6 ordered an appetizer, three main dishes, a dessert and a beer, and the restaurant price was $99. The food was as good as any restaurant in Manhattan, including a great foie gras. We only regret that it was so busy, and that we were so late in order to get a table. The special desserts were beautiful and delicious. Our waiter took good care of us, and was very attentive. This is a really nice place to enjoy good food and great company. My family has been coming to La Sabrosita for many years. This is a nice, relatively quiet, family restaurant.
