Q: Why doesn't the following code work? I have a long snippet of javascript code with an if statement inside the for loop. If the if condition is true, the alert will be shown, but I want it to be fired only once at the first iteration. Why it is not working?

```
for(var i = 1; i <= 10; i++) {  
    $(function() {  
        $('input[type=checkbox]').on('change', function() {  
            var selection = [];  
            $('input[type=checkbox]').each(function() { if(  
                $(this).is(':checked')) { selection.push($(this).val());  
            }  
        });  
    });  
}
```

---

} });
