Silver Plated (Lever Sized) Oud Inlay The gilt brass oud
inlay used on the Pinched Silver Plated Lever Sized Oud
inlay is hand crafted in Indonesia by a master craftsman.
Each piece is individually created by a person and as a

result the colors, inclusions and hues may vary slightly from piece to piece. MUSIC: THE NOBLE PRINCE: THE MUSIC WAS WRITTEN BY HAROLD RAMSEY AND COMPOSED BY ANTHONY BAILEY, BERNARD BRAVES, AND LYNN MATHAV. A randomized clinical trial on the efficacy of adjunct powdered activated carbon for the removal of Co(II), Ni(II), and Zn(II) from water. The efficacy of powdered activated carbon (PAC) for the removal of Co(II), Ni(II), and Zn(II) from water was evaluated in a 14-day in situ pilot study. Sixty-two household water samples were collected from an urban and a rural area of the city of Mexico City and were analyzed for Co(II), Ni(II), and Zn(II). Six samples that were selected randomly were spiked with Co(II), Ni(II), and Zn(II) and the concentrations of Co(II), Ni(II), and Zn(II) were analyzed prior to and after PAC treatment. The total coliform, thermotolerant coliform, and E. coli were enumerated before and after the water was treated with powdered activated carbon and the percentages of removal were calculated. Results showed that the average percentage removal of Co(II), Ni(II), and Zn(II) by PAC was in the range of 86-99%.
