---

A beautifully written adventure set in a Victorian department store, featuring a cast of memorable characters, puzzles, and locations, Copperfield is one of the most underrated point-and-click adventures around. Maybe it was overshadowed by Broken Sword and then by Sierra? Maybe the novelty of shopping in a virtual world and encountering the likes of Dickens and Baskerville wore off by the time that feature-less, imperfect, and let's be honest, very unpolished The Case of the Caretaker's Dog appeared in 1996. Still, it, too, features a clever plot and a talented cast of characters, including the perfect foil in Liz, the free-spirited party-girl. The ability to enter characters from the novel via a virtual tour of the store would also go on to form the blueprint for the modern gamebook, today one of the most successful genres in the livingroom gaming market. Zork: Grand Inquisitor isn't all fantasy, however. Within the games many puzzling puzzles lie waiting for a skilled adventurer to uncover them all, and many of them are fiendishly inventive. Hard puzzles are relatively few and far between, but there are plenty of them to keep players guessing right up to the game's unexpectedly touching conclusion. One of the best puzzles in the game has you delivering multiple pieces of a letter to an important figure in a steampunk world. Then, just when you were starting to lose faith, the puzzle abruptly changes to give you a free gift from the important figure. It's an example of the kind of cleverness so rare in games that it can still make an adventure unforgettable after years of time passes.

## Big Fish Games Free Download Full Version For Pc Torrent

Besides the original Big Fish Games Collection, the Big Fish Games Collection 1.3, v1.2, v1.1 apk download is also available in the blog at Bit-Torrent. You can try it out and play Big Fish Games Collection for all Android phones and tablets which are running Android OS 5.1 or higher version.
